4 - Importance of the document :
The system of endowment "Waqf" is considered a great genius developed by Muslims to be close to Allah through participating in building their societies and immortality of earth. The first endowment in Islam was the mosque of Qibaa which was founded by Prophet Muhammad (peace be upon him) when he came to Medina, then western people excepted it and transferred it to the Ottoman state in the nineteenth century A.D and called it later civilian society organizations (1).

(1) civilian society organization: Charity organizations called by the reformers in Europe, consist of informal nets formed through the individuals of civilian society to achieve goal put in advance for developing the society raising the standard of living of people, stopping injustice that harms some classes of people as well as securing human rights, in addition they have a role in participating people in developing decisions, representing an opportunity for building the abilities of organizations, enabling them to have arts of administrations achieving cooperation and increase awareness of society, making it participate in solving public cases. See : Mohamed Al-Fateh Abd Al-Wahab al-Etiebie, civilian society organizations – emergence, mechanisms – tools and achieving goals – first edition – Yemen 2009, P.7 .

It is known that the Islamic endowment system – for thirteen centuries – represented a wonderful image of human cooperation and was a resource of good when a lot of organizations depended on endowments, such as mosques, schools, Zawayas "small mosques", Ribats, as well as providing money for the poor. This was until they crumbled during recent ages except for the endowment of holy Mecca that had a great interest. Thus, endowments in Mecca are still preserved through instruments and documents that document them completely.

Thus, the endowments of sultan Mohamed Rashad Khan V., one of the most important Ottoman sultans- in Mecca are considered among the important endowments that developed in the Ottoman period. His endowments varied between civil structures that were rented, then the rent was used for spending on the two holy Mosques (among them the text of our documentation). The documentation included different endowments; one of them was the house that included upper and lower housing "cells", facilities, legality rights, and a cistern at the bottom of the house, as well as shops and cells.

This endowment continued till the fourteenth century A.D but it was removed for enlarging the holy mosque in Mecca.

Publishing this document was very important for proving the continuity of the endowment in Mecca especially.

As for the importance of the document, it was preserved in the record of roofers in holy Mecca during the Ottoman period for keeping it. This document contains details of the lists of endowments, so the researcher explained all important terms that were mentioned in it with comments, interpreting the obscure phrases through historical resources and available specialized books, hoping that the research will add new information about endowments, spending its income in holy Mecca.

6 – The economic importance of the document lies in the various types of coins used in Cash transactions during that period, represented in silver coins with their types such as Al-Diwani "half silver – Para" and Qurush and their parts such as the half and the quarter and a sixth.

7 – The document proved that the responsible persons of Wikala and the endowment were of the high rank positions such as the deputy of the Grand Mosque Mr. Soliman son of the late Mr. Ahmed Abd al-Wahab, known later by their jobs, the director of endowments Excellency sheikh Abd al-Rauf al-Sabban, Head of the royal endowments division Abdullah son of Omar.

ملخص البحث:

يعد صكوك الأوقاف والوثائق أحد أهم المصادر التاريخية غير القابلة للطعن حيث تكمن أهمية هذه الوثائق في معرفة العديد من الحقائق التاريخية الهامة ومنها أسماء القائمين على الوقف والنشأة الموقوفة بالإضافة إلى الفترة الزمنية الواقعة في تاريخ الوقفية، كما أن قراءة صكوك ووثائق الوقف بصفة عامة ليست بالعملية السهلة وإنما هي عملية شاقة وصعبة من حيث الوقت في قراءة تلك الوثائق بالإضافة إلى صعوبة قراءة الخطوط التي كتب بها هذه السجلات والتي تتنوع ما بين خط النسخ والعثم والرقعة، بالإضافة إلى تحمل كل معلومة وردت في هذه الوثيقة، وتتمثل هذه الوقفية أهمية كبيرة في الأوقاف المكية لما لها من دور في دراسة دور الكبير الذي قام به العاملين بالحرم المكي وإدارة الأوقاف بムكة المكرمة في الحفاظ على أوقاف الحرم المكي الشريف.

ومن أهم نتائج الدراسة ما يلي:

1- تسجيل ونشر الوثيقة بإعتبارها جزءاً من تاريخ مكة المكرمة.

2- توثيق وتحديد لبعض الأماكن في مكة المكرمة مثل الدكان القائم بزقاق الحجر المقابل لباب النبي، أحد أبواب المسجد الحرام المكي وحوض الشيخ جان النقسبندي بحارة القشاشية والشارع الأعظم بخط المسعي.

3- تميزت الوقفية بالكشف عن أحد أهم الأوقاف في مكة المكرمة وهو وقف السلطان المملوكي محمد قايتباي.

4- رصدت الوقفية أسماء بعض الأشخاص المستحقيين للوقف ومنهم السيد محمد ونفيسه ولدي المرحوم السيد أحمد أبي عبدالله الميرغني وعانشة بنت المرحوم محمد رزق بن عبدالرحمن الطحفي اليمني.

5- كشفت الوقفية اسم ناظر هذا الوقف وهو شريف مكة الشريف الحسين نجل المرحوم محمد نجل المرحوم الشريف عبدالمعين ابن الشريف عون.

6- أشارت الوقفية إلى اسم وكيل الوقف وهو السيد سليمان نائب الحرم ابن المرحوم السيد أحمد عبدالوهاب نائب الحرم.
